

N2U[®] NITROGEN GENERATOR

The next-generation N2U Nitrogen Generator utilizes advanced fiber membrane air separation technology to set the standard for purity, reliability and cost-efficiency.

Engineered sleek with 304 stainless steel, N2U is built with premium components for lasting reliability. The advanced design features an oil-free air compressor, copper piping and easy-open access panel — all packaged in a compact footprint that installs in minutes.

HIGH-VOLUME

Nitrogen Generator | N2C

**Nitrogen Generator +
Built-in Gas Blender | N2BC**

51" H X 19" W X 13" D

WEIGHT: N2C: 108 lbs
N2BC: 115 lbs

VOLUME: 32 SCFH

KEGS/MONTH: UP TO 200+

MID-RANGE VOLUME

Nitrogen Generator | N216C

**Nitrogen Generator +
External Gas Blender | N216BC**

51" H X 19" W X 13" D

WEIGHT: N216C 97 lbs
N216BC: 108 lbs

VOLUME: 14 SCFH

KEGS/MONTH: UP TO 200

LOW-VOLUME

Nitrogen Generator | N26C

40.5" H X 15" W X 13" D

WEIGHT: 79 lbs

VOLUME: 3 SCFH

KEGS/MONTH: UP TO 100

- Electrical Supply 120 VAC/60hz/Single Phase
- Dedicated Circuit Recommended
- Fuse Rating 20 AMP

- CO2 Gas Input 100 PSI minimum requirement
- Generation purity meets/exceeds craft brewery guidelines
- Wall-mount units available

Low-cost maintenance packages always ready to ship same day for fast and easy upkeep.
